Dr. Moshe Harel

*CTO and Founder*

*BlueGreen Water Technologies Ltd.*

Dr. Harel is a serial entrepreneur with two decades of experience in research and development, management and business development. Dr. Harel has led the development of *BlueGreen’s Lake Guard®* technology from concept to product, positioning it as the first commercially available unlimited solution to combat large-scale harmful algal blooms in an annual multi-billion-dollar market.

Dr. Harel received his Ph.D. in Environmental Microbiology from the Hebrew University of Jerusalem, Israel, and was a postdoc at the Department of Molecular and Human Genetics at Baylor College of Medicine, Houston, Texas.

Adv. Eyal Harel

*CEO and Co-Founder*

*BlueGreen Water Technologies Ltd.*

Eyal Harel is a lawyer, entrepreneur and investor with two decades of experience in technology development, transfer transactions and global multicultural negotiations.

Mr. Harel is one of the owners and served as CEO of the XinTech (Bio Sciences) group of companies, a boutique investment bank promoting Sino-Western technology transfer transactions and strategic collaborations in the life sciences.

He also held the position of Legal Counsel in Israel for China Civil Engineering Construction Corp., one of the largest construction companies in the world and was involved in some of Israel’s biggest construction projects.

Mr. Harel holds an LLB and an additional diploma in East Asia Studies from the Hebrew University in Jerusalem and an MBA from the Hong Kong University of Science and Technology.

Dr. Waleed Nasser

*U.S. Director of Operations*

*BlueGreen U.S. Water Technologies Inc.*

Dr. Nasser is a cross-disciplinary scientist with more than 20 years’ experience in end-to-end solutions in biochemistry, microbiology, infectious diseases, genome sequencing and bioinformatics.

Dr. Nasser holds a bachelor’s degree in biochemical/biophysical sciences from the University of
Houston and a Ph.D. from Baylor College of Medicine (BCM), where he studied the complex interspecies interactions among soil microorganisms. He completed a three-year postdoctoral training at the Center for Molecular and Translational Human Infectious Diseases Research at the Houston Methodist Research Institute.

Dr. Nasser served as the director of research for a startup company, BrainCheck. He then joined the Human Genome Sequencing Center at BCM, where he led multiple human genomics projects. Before joining BlueGreen, Dr. Nasser served as associate director for a microbiome company, Diversigen, where he provided full package analytics and led research and development in bioinformatics and computational tools.

Dr. Nasser consulted for BlueGreen since May 2014 and joined the global company as its U.S. director of operations on February 2019.
