Ranking of Fiscal Year 2016-17 Districtwide Cost-Share Applications  
(Approximate \$25 million Funding Level)**

\*Project submitted to FDEP for Springs Protection Funding

Draft Project Rank	Name	SJR Core Mission	Applicants Share	Total District Portion	Cumulative Total District Funding (running total)	Estimated Construction Cost	Total Estimated Project Cost	County	Project Description
1	Jacksonville Beach Sewer Main Extension & Septic Removals	Water Quality	\$173,246.00	\$84,517.00	<b>\$84,517.00</b>	\$256,113.00	\$257,763.00	Duval	Removal of septic tanks along the Intracoastal Waterway and extending sanitary sewer mains to 8 residential properties.
2	Palm Coast Flood Control Structure BS-2 - <b>REDI</b>	Flood Protection	\$0.00	\$334,000.00	<b>\$418,517.00</b>	\$334,000.00	\$334,000.00	Flagler	Replacing the existing flood control structure with one that will provide more freeboard for the adjacent neighborhoods.
3	Apopka Water Conservation Incentive Program	Water Conservation	\$70,000.00	\$70,000.00	<b>\$488,517.00</b>	\$140,000.00	\$140,000.00	Orange	Water conservation program to target high water use residential and commercial accounts that will have the greatest potential to reduce use.
4	Eustis Eastern Wastewater Treatment Plant Expansion	Water Quality	\$5,905,000.00	\$2,475,000.00	<b>\$2,963,517.00</b>	\$7,500,000.00	\$8,380,000.00	Lake	Expand the capacity of the WWTP to serve Sorrento area (City of Eustis service area), preventing need for septic tanks.
5	Orange County EPD Passive Onsite Treatment System: Septic tank retrofit	Water Quality	\$29,100.00	\$9,900.00	<b>\$2,973,417.00</b>	\$30,000.00	\$39,000.00	Orange	Retrofit 2 residential homes with existing conventional septic system by adding the Passive Onsite Treatment Systems.
6	Seminole County Passive Onsite Treatment System: Septic Tank Retrofit	Water Quality	\$35,800.00	\$13,200.00	<b>\$2,986,617.00</b>	\$40,000.00	\$49,000.00	Seminole	Retrofit 2 residential homes by with existing conventional septic system by adding the PTI Passive Onsite Treatment System.
7	Umatilla Cassidy Street Drainage Project - <b>REDI</b>	Flood Protection	\$5,000.00	\$35,000.00	<b>\$3,021,617.00</b>	\$35,000.00	\$40,000.00	Lake	Installation of inlets on each side of Cassidy Street to eliminate roadway flooding.
8	Oakland Stormwater Drainage Improvements	Water Quality	\$375,206.81	\$184,803.35	<b>\$3,206,420.35</b>	\$560,010.16	\$560,010.16	Orange	The project will construct three bio-filtration retention ponds and associated swales and structures.
9	Flagler Beach Ocean Palm Subdivision Stormwater Improvement - <b>REDI</b>	Flood Protection	\$200,000.00	\$675,000.00	<b>\$3,881,420.35</b>	\$875,000.00	\$875,000.00	Flagler	Stormwater improvements to a residential subdivision and golf course.
10	Palm Coast Belle Terre/Matanzas Woods Master Pump Station - <b>REDI</b>	Water Quality	\$906,780.00	\$750,000.00	<b>\$4,631,420.35</b>	\$1,500,000.00	\$1,656,780.00	Flagler	Construct a Master Pump Station to provide for the reversal of wastewater flow from the northwest quadrant of Palm Coast, providing 1 mgd of reclaimed water.
11	Deland Reclaimed Water Retrofit Project Phase 1	Water Supply	\$812,040.00	\$399,960.00	<b>\$5,031,380.35</b>	\$1,212,000.00	\$1,212,000.00	Volusia	Install a reclaimed water main within existing developed areas for irrigation purposes.
12	WWWS Project 4A Deltona Storage and Treatment System Improvements	Water Supply	\$7,225,000.00	\$2,475,000.00	<b>\$7,506,380.35</b>	\$7,500,000.00	\$9,700,000.00	Volusia	A 3 MG raw water storage tank for stormwater and future surface water, 1 MG reclaimed water tank, and other improvements.

Ranking of Fiscal Year 2016-17 Districtwide Cost-Share Applications  
(Approximate \$25 million Funding Level)**

\*Project submitted to FDEP for Springs Protection Funding

Draft Project Rank	Name	SJR Core Mission	Applicants Share	Total District Portion	Cumulative Total District Funding (running total)	Estimated Construction Cost	Total Estimated Project Cost	County	Project Description
13	Longwood North CR 427 & Lake Ruth Septic Tank Removal	Water Quality	\$1,716,886.00	\$664,303.00	<b>\$8,170,683.35</b>	\$2,013,040.00	\$2,381,189.00	Seminole	Eliminate 98 septic tanks and install a central sewer system to connect the properties.
14	Ocoee Final Phase of Meter Replacement and Full Integration of AMI	Water Conservation	\$1,115,282.70	\$1,115,282.70	<b>\$9,285,966.05</b>	\$2,230,565.40	\$2,230,565.40	Orange	Complete the city-wide meter replacement program by converting the remaining customers (about 75% or 9000 meters) to the new AMI system.
15	Cocoa Beach Muck Removal Phase 2	Water Quality	\$455,600.00	\$224,400.00	<b>\$9,510,366.05</b>	\$680,000.00	\$680,000.00	Brevard	The project will remove 22,500 CY of nutrient-laden muck sediments from five canals that enter into the Banana River.
16	Ormond Beach South Peninsula Reclaimed Water Expansion	Water Supply	\$3,615,897.10	\$1,455,177.90	<b>\$10,965,543.95</b>	\$4,409,630.00	\$5,071,075.00	Volusia	Expand the City's reclaimed water distribution network to an additional 653 properties.
17	Atlantic Beach AMI Implementation	Water Conservation	\$109,312.50	\$95,687.50	<b>\$11,061,231.45</b>	\$191,375.00	\$205,000.00	Duval	Implement an AMI program within City limits. The project is Phase 1 and will include installing AMI meters for 650 high-use users.
18	CCUA Old Jennings Reclaimed Water Plant Ground Storage Tank	Water Supply	\$409,118.60	\$138,460.00	<b>\$11,199,691.45</b>	\$419,578.60	\$547,578.60	Clay	Construct a 750,000 gallon ground storage tank at the Old Jennings Road Reclaimed Water Plant facility.
19	Orange Blossom KOA Sewage Treatment Plant Elimination	Water Quality	\$120,834.00	\$45,441.00	<b>\$11,245,132.45</b>	\$137,700.00	\$166,275.00	Orange	Connect the R/V park's sewer system via lift station and force main to the City of Apopka's central sewer system.
20	Woodlawn Memorial Park Irrigation System Upgrade	Water Supply	\$225,469.74	\$111,052.26	<b>\$11,356,184.71</b>	\$336,522.00	\$336,522.00	Orange	Converting irrigation system from potable to reclaimed water. 3 wells will be abandoned and the irrigation system connected to existing reclaimed water main.
21	Longwood Island Lake Septic Tank Abatement	Water Quality	\$2,954,972.40	\$1,141,246.00	<b>\$12,497,430.71</b>	\$3,458,320.00	\$4,096,218.40	Seminole	Eliminate 100 septic tanks and connect to a central sewer system in the South Island Lake area of Longwood, located near two lakes and within the Wekiva springshed.
22	Longwood South Longwood Septic Tank Abatement Phase 2	Water Quality	\$1,042,548.20	\$441,081.00	<b>\$12,938,511.71</b>	\$1,336,610.00	\$1,483,629.20	Seminole	This is a continuation of a program to replace septic tanks in the South portion of Longwood and will remove an additional 50 septic tanks.
23	Volusia County RCW Main Extension for I-4/SR 472 Activity Center	Water Supply	\$411,715.00	\$202,785.00	<b>\$13,141,296.71</b>	\$614,500.00	\$614,500.00	Volusia	Construct a reclaimed water main along Normandy Blvd north to the Graves Ave/Howland Blvd intersection.
24	Penney Farms Mandatory Meter Reader Replacement	Water Conservation	\$5,000.00	\$5,000.00	<b>\$13,146,296.71</b>	\$10,000.00	\$10,000.00	Clay	Replacement of old hand held readers with newer, supported readers.

Ranking of Fiscal Year 2016-17 Districtwide Cost-Share Applications  
(Approximate \$25 million Funding Level)**

\*Project submitted to FDEP for Springs Protection Funding

Draft Project Rank	Name	SJR Core Mission	Applicants Share	Total District Portion	Cumulative Total District Funding (running total)	Estimated Construction Cost	Total Estimated Project Cost	County	Project Description
25	JEA Bartram Park Reclaimed Water Storage Tank Expansion	Water Supply	\$1,473,000.00	\$627,000.00	\$13,773,296.71	\$1,900,000.00	\$2,100,000.00	Duval	Construction of a 2.5 MG storage tank, a 20" fill line, 30" suction line, and 16" drain line.
26	Marion County CP #77 Retrofit of DRAs 7244 and 7396	Water Quality	\$952,397.00	\$318,450.00	\$14,091,746.71	\$965,000.00	\$1,270,847.00	Marion	Retrofit two existing drainage retention areas in the Silver Springs Shores Subdivision with Bold and Gold activated media to promote denitrification.
27	St Johns County Customer Portal	Water Conservation	\$48,000.00	\$48,000.00	\$14,139,746.71	\$96,000.00	\$96,000.00	St. Johns	Purchase an interactive application that allows customers to make informed decisions about water usage.
28	Palatka South Historic District Stormwater - REDI	Water Quality	\$260,234.00	\$468,019.00	\$14,607,765.71	\$691,153.00	\$728,253.00	Putnam	Install an exfiltration, conveyance, system and baffle box to provide stormwater treatment for a neighborhood that currently discharges directly to the SJR.
29	Brevard County Passive Nutrient Reduction for OSTDS	Water Quality	\$40,900.00	\$14,850.00	\$14,622,615.71	\$45,000.00	\$55,750.00	Brevard	Retrofit 3 residential septic tanks with an average flow rate of 400 gallons per day to the Passive Onsite Treatment System.
30	Indian River County Osprey Acres Stormwater Park	Water Quality	\$3,586,873.00	\$1,200,250.00	\$15,822,865.71	\$3,637,123.00	\$4,787,123.00	Indian River	Construct a stormwater park to remove residual nitrogen and phosphorus from Osprey Marsh's effluent.
31	CCUA CR 209 Reclaimed Water Transmission Main	Water Supply	\$422,948.90	\$189,746.00	\$16,012,611.71	\$574,989.78	\$612,694.90	Clay	Construct a 3,800 LF 20" reclaimed water main extension to serve a future development area
32	Palm Coast RCW Irrigation Along US1 & Palm Coast Park	Water Supply	\$1,038,000.00	\$462,000.00	\$16,474,611.71	\$1,400,000.00	\$1,500,000.00	Flagler	Construct outlets for irrigation with reclaimed water from WWTP #1.
33	Cocoa Factory Street Stormwater Retrofit	Water Quality	\$151,840.00	\$55,801.00	\$16,530,412.71	\$169,096.00	\$207,641.00	Brevard	Retrofit an existing dry detention pond to accommodate a larger drainage area to treat untreated stormwater that is now directly discharging into the IRL.
34	St Johns County St Augustine Beach Reclaimed Water Transmission Main	Water Supply	\$319,334.00	\$136,858.00	\$16,667,270.71	\$414,720.00	\$456,192.00	St. Johns	Construct a RCW main from Ocean Cay development to St. Augustine Beach City Hall and park and to Ocean Ridge.
35	Lake County Magnolia Lane Water Quality Project	Water Quality	\$500,000.00	\$61,500.00	\$16,728,770.71	\$411,500.00	\$561,500.00	Lake	Retrofit of next generation water quality treatment baffle box to an existing subdivision drainage system on the shores of Lake Harris.
36	Deland Reclaimed Water Retrofit Project 2B	Water Supply	\$1,017,570.00	\$501,180.00	\$17,229,950.71	\$1,518,750.00	\$1,518,750.00	Volusia	Install a reclaimed water main within existing developed areas currently irrigating with potable water.

Ranking of Fiscal Year 2016-17 Districtwide Cost-Share Applications  
(Approximate \$25 million Funding Level)**

 \*Project submitted to FDEP for Springs Protection Funding

Draft Project Rank	Name	SJR Core Mission	Applicants Share	Total District Portion	Cumulative Total District Funding (running total)	Estimated Construction Cost	Total Estimated Project Cost	County	Project Description
73	Organicaworld Greenhouse 3 Water Conservation and Quality	Water Conservation	\$5,000,000.00	\$2,500,000.00	<b>\$37,093,193.22</b>	\$5,200,000.00	\$7,500,000.00	Lake	Capture, store, and utilize rainwater from Greenhouse 3, which will be channeled through a series of gutters and pipes, to 2 in-ground, 0.5 MG reservoirs.
74	GRU Water Service Upgrades	Water Conservation	\$335,000.00	\$335,000.00	<b>\$37,428,193.22</b>	\$670,000.00	\$670,000.00	Alachua	Upgrade inferior water service lines with improved piping material and installing Advanced Metering Infrastructure smart meters.
75	American Bioclean Biosolids Class A Stabilization	Water Quality	\$1,747,000.00	\$825,000.00	<b>\$38,253,193.22</b>	\$2,500,000.00	\$2,572,000.00	Volusia	Converting an existing lime stabilization process that produces Class B biosolids to a neutralizer process that will produce Class A biosolids.
76	Groveland Lower Floridan Aquifer Well Investigation	Water Supply	\$988,250.00	\$486,750.00	<b>\$38,739,943.22</b>	\$1,475,000.00	\$1,475,000.00	Lake	Construction and testing of one lower Floridan aquifer test/production well at the City's Palisades well field.
77	Leesburg Aquifer Recharge Well	Water Quality	\$2,265,000.00	\$825,000.00	<b>\$39,564,943.22</b>	\$2,500,000.00	\$3,090,000.00	Lake	Construct an exploratory well intended to identify a suitable disposal zone in the Lower Floridan Aquifer and construct a recharge well if a suitable zone is identified.
78	Volusia County West Volusia Water Supply Group (WVWS Project 5) Well Construction and Testing for Deep Creek/Leffler Water Supply Facilities Phase 1	Water Supply	\$782,392.50	\$385,357.50	<b>\$39,950,300.72</b>	\$1,167,750.00	\$1,167,750.00	Volusia	Construction of Upper Floridan aquifer wellfield. The wells are anticipated to provide 1 MGD.
<b>Withdrawn</b>									
	<b>WITHDRAWN</b> Hawthorne Downtown Water Meter Replacements Phase 3 - <b>REDI</b>	Water Conservation	\$0.00	\$500,000.00		\$500,000.00	\$558,200.00	Alachua	Replace 6,500 LF of water mains with new PVC water mains and HDPE tubing for the service lines to each resident.
	<b>WITHDRAWN</b> Vero Beach Permeable Pavement Lateral E Inlet Retrofit	Water Quality	\$1,025,000.00	\$341,325.00		\$1,366,325.00	\$1,398,825.00	Indian River	Retrofit and upgrade existing stormwater inlets within portions of the Lateral E watershed with permeable pavement media.
	<b>WITHDRAWN</b> Ocala Pine Oaks Wetlands Aquifer Recharge	Water Supply	\$7,500,000.00	\$2,500,000.00		\$10,000,000.00	11200000	Marion	Construct a manmade wetlands park that will have water supplied by the city's reclaimed and stormwater treatment systems.
	<b>WITHDRAWN</b> Ocala WTP2 Lower Floridan Aquifer	Water Supply	\$4,020,000.00	\$1,980,000.00		\$6,000,000.00	6500000	Marion	Construct an emergency water treatment facility further away from Silver Springs.
	<b>WITHDRAWN</b> Marion County NPK Water Recovery Facility	Water Quality	\$1,273,072.00	\$527,543.00		\$1,598,615.00	1800615	Marion	Construct a pilot septage treatment plant using a patented treatment technology to process concentrated, domestic septage.
